KidsTown provides a daily preschool program, without the commitment required at conventional child care centers. Attendance is truly drop-in, meaning your child may attend any day or days of the week, to suit your schedule.*

Our preschool curriculum is offered Monday through Friday, from 9:00am to Noon. Our goal is to help your child develop the skills necessary to succeed for years to come, skills including social awareness, math concepts, and language development (speaking, pre-writing and pre-reading skills).

KidsTown's Preschool has been developed for children 2-5 years of age. It is a theme based developmental program. Our curriculum provides age appropriate learning and activities, based on a monthly theme. Your child will learn through the use of arts and crafts, music, imagination, science investigation, citizenship, special events and much more.

**State-mandated attendance limits for drop-in child care apply.*

Theme Based Learning:

The KidsTown Drop-In Preschool Program introduces academics through fun activities that not only invigorate the mind of a child but also **boost independence, confidence and self-esteem.**

We challenge our children with a curriculum that captures their imagination, and a learning environment where they can **make discoveries, solve problems, and think independently.**

The Preschool Curriculum is **theme based** and covers **Language Arts, Math, Science, and Social Studies.** Along with academics, our curriculum also incorporates **Arts and Crafts, Music and more.**

Fine, Gross and Group Motor Activities are encouraged with a variety of small and large manipulatives, like puzzles, table toys, floor puzzles, pegboards, lacing, tying, folding, buttoning, and circle time activities, among others.

Sensory and Cognitive Skills like discriminating shapes, sizes, colors, textures, sounds, and smells are enhanced using proven materials and developmental toys.

Language Development: Our Whole Languages approach to learning includes letter songs, alphabet stories, verbal dictation, phonics, letter formation, vocabulary building, pre-writing, and reading readiness.

Storytelling, puppets, flannel boards and finger play add to the language experience and build on vocal and language skills.

Math Concepts are taught through integrated approaches, visual presentation, small manipulatives and hands on activities, group activities, counting, critical thinking, problem solving, and one-on-one instruction.

Science and Social Studies are part of the curriculum and help children explore a different concept each week in a hands-on way.

Topics focusing on **Health & Nutrition** promote good health and hygiene habits and nutritional awareness.

Music plays a big role in encouraging musical movements and rhythm, language development, group plays, singing and dancing.

Hands-On **theme based Arts and Crafts** are fun to do and develop cognitive skills, and refine eye-hand coordination.

Our program is designed for children ages 2-5, giving them a solid foundation for a smooth transition to Kindergarten.

KidsTown is licensed by the Colorado State Department of Human Services. Division of Child Care Licensing. Staff members are fingerprinted through the Colorado Bureau of Investigation and have had background checks. All staff are CPR and 1st Aid certified.
